

Do You Live Along the Lake Huron Shoreline?

The St. Clair Region Conservation Authority is updating its Shoreline Management Plan. The work is being undertaken by Baird & Associates Coastal Engineers Ltd. This plan extends from the Blue Water Bridge in Point Edward to Army Camp Road, Ipperwash. The purpose of the Plan is to examine shoreline hazards and protection and to provide recommendations for sustainable development.

You are invited to an open house which will provide an update on the status of the plan and an opportunity for you to provide feedback.

Wednesday, July 21, 2010
5:00 p.m. - 9:00 p.m.
Camlachie Community Centre
6767 Camlachie Rd., Sarnia

Thursday, July 22, 2010
